Fire Awareness Training

For companies that do not wish a national accredited course but want their staff trained in using portable fire equipment.

Course content

Theory:

- Theory of fire and fire triangle
- Types of extinguishers, fire hose reels and blankets
- Types of fires
- Selection of extinguishers
- How fire spreads
- Basic house keeping
- What to do when you discover a fire.

Practical:

- Use a portable fire extinguisher to extinguish a small controlled fire
- Demonstrate the correct use of a fire hose reel
- Demonstrate the correct use of a fire blanket

Assessment: Trainees will be assessed using oral questions, written quiz and practical use of equipment, on successful completion trainees will be issued a certificate of participation

Delivery: Training will be carried out by our qualified trainers with fire ground experience to suit your workplace.
